

## **1. Environmental Policy**

### **5.1 Environmental Policy Statement**

It is the policy of RS Machinery to integrate environmental management into our day to day business activities and operations. We will manage our activities in a manner that protects the environment, the safety of our staff and public health. We will cooperate with the communities in which we operate and be a good and trusted neighbour. RS Machinery recognises the need for sustainable development and continually aim to meet or improve upon legislation. RS Machinery accepts that it has a responsibility to the principles of sustainability and environmental awareness as summarised by the ISO 14001:2004 standard.

RS Machinery recognises the social and economic importance of protecting the environment; that its commitment to this must encompass all activities and that it should be prepared to lead by example in promoting a sensitive, considered attitude to the environment. Our approach to managing our environmental issues is compliant to ISO 14001:2004.

Guided by our policy, we recognise and will exercise our responsibilities to:

1. Comply with legal & other requirements to which the business subscribes including the international standard ISO 14001:2004.
2. Commit to achieving measurable, continuous improvement through our environmental management programme.
3. Prevent pollution by using alternative measures in our facility.
4. Provide the appropriate resources including training of staff to ensure they are environmentally responsible.
5. Review and set objectives/targets on an annual basis ensuring they are measurable and achievable.
6. Monitor performance through the internal audit process.
7. Communicate and reinforce this policy throughout the organisation through the use of notice boards, induction training and on-going training.
8. Make this policy available to the public.
9. Display this policy throughout our business.
