

## CNC SHEETMETAL MACHINERY SOLUTIONS

### ROLLING

#### MORGAN RUSHWORTH & MG PLATE ROLLING MACHINERY

- Unique MG EVO Touch Command CNC Control
- Full Wind Tower Capability
- Automatic Sheet handling

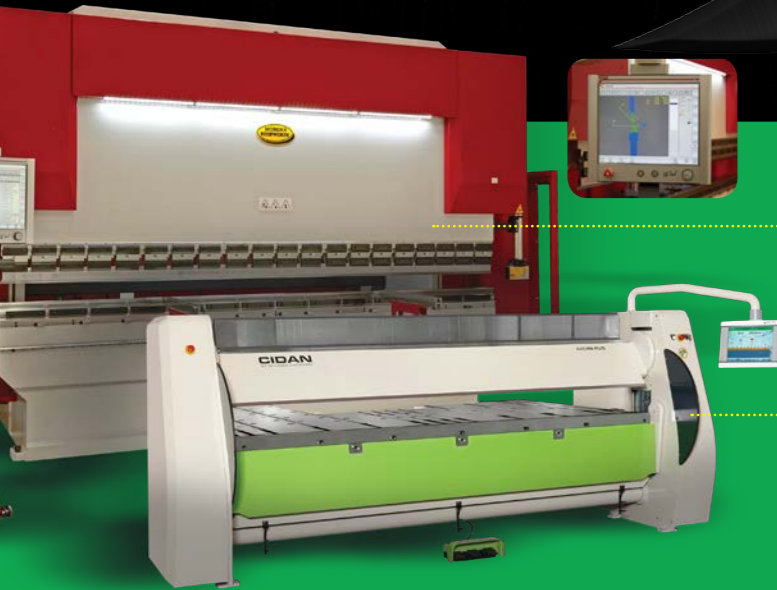

### FOLDING

#### MORGAN RUSHWORTH & BAYKAL CNC HYDRAULIC PRESSBRAKES

- Next generation automation & sheet handling
- NEO energy saving features
- European build quality
- Continuous repeatability

#### CIDAN CNC SHEETMETAL FOLDING MACHINERY

- Unique combi beam design
- Best in class CNC control

### PUNCHING & SHEARING

#### MORGAN RUSHWORTH GUILLOTINE SHEARS

- Up to 25mm shearing capacity
- Automated sheet handling
- Unique laser lightguards

#### BAYKAL PUNCH PRESS RANGE

- Single or turret option
- Superb finish quality
- 30 Ton Punch Capacity

## MANUAL & CNC ENGINEERING MACHINERY

### DRILLING & MILLING BRENNER CNC VERTICAL MACHINING CENTRES

- FANUC/FAGOR/SIEMENS control options
- Large range

### DRILLING & MILLING BEMA HEAVY DUTY RADIAL ARM DRILLS

- Up to 3000mm throat depth
- Up to 90mm drilling capacity

### MANUAL OR CNC LARGE BORE TURNING MEYER & ZMM HEAVY DUTY CNC LATHES

- Oil country range available up to 355mm (14") diameter
- European build quality
- Manual or CNC

### OUR LOCATIONS

Aberdeen - Head Office  
**RS MACHINERY**  
Denmore Place  
Denmore Industrial Estate  
Bridge Of Don, Aberdeen  
AB23 8JS

Glasgow  
**RS MACHINERY**  
265 Cambuslang Road  
Cambuslang, Glasgow  
G72 7DB  
(By Appt)

Dublin  
**RS MACHINERY IRELAND**  
North Dublin  
(By Appt)

PART OF  
**UKMG™**  
UK MACHINERY GROUP

**RS™**  
MACHINERY

**PRODUCT OVERVIEW**  
METALWORKING SOLUTIONS SUPPLIED

- PROFILE CUTTING MACHINERY
- SHEET & PLATE WORKING MACHINERY
- ENGINEERING & FABRICATION MACHINERY
- SAWING MACHINERY

## CNC SHEET & PIPE PROFILING SOLUTIONS

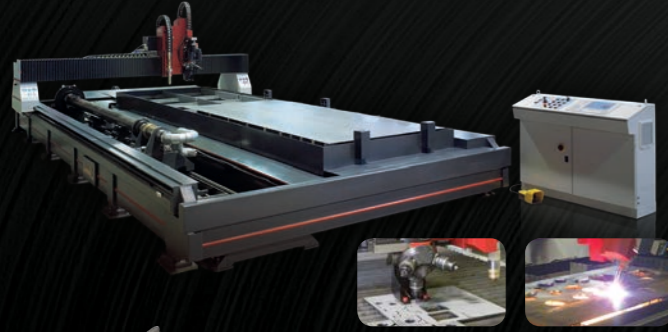

### WATERJET CUTTING CMS TECNOCUT WATERJET CUTTING TECHNOLOGY

- Cutting safety system with auto closing doors
- Unique auto dredge system for sludge removal
- Pipe cutting up to 500mm diameter
- 5 Axis cutting capability

### PLASMA & OXY-FUEL CUTTING BAYKAL & MORGAN RUSHWORTH HIGH DEFINITION PLASMA CUTTING SOLUTIONS

- Hypertherm full suite CNC, power source & software
- Plate cutting, pipe & box section cutting inc bevelling and drilling

### PLASMA & OXY-FUEL CUTTING PROMOTECH PPCM PIPE BEVELLING AND CUTTING SOLUTION

- Plasma/oxy fuel cutting of bevels, straight and mitre cuts in pipe
- Comprehensive software suite of std bevels & cuts
- 650mm diameter pipe capacity
- 12 mtr pipe length capacity

### LASER CUTTING BAYKAL NEO II FIBRE LASER CUTTING SOLUTIONS

- Lowest cost per part from laser with NEO fiber technology
- Advanced german HMI control
- 2, 3, 4 & 6KW Fiber Power sources available

## SAWING MACHINERY SOLUTIONS

### LARGE CAPACITY BANDSAWS STERLING TWIN COLUMN HEAVY DUTY BANDSAWS

- Up to 1500mm round/section capacity
- Twin column linear rail design for maximum rigidity
- Powered material handling automation and measuring capability
- Mitring models available
- European heavy duty build quality

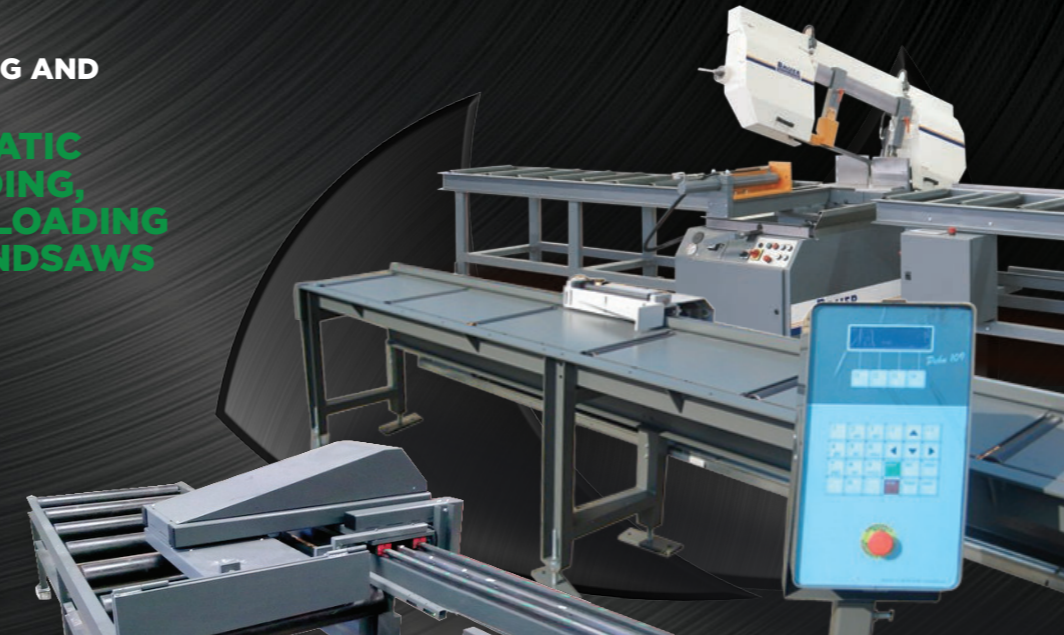

### CNC AUTOMATIC BAR/PIPE CUTTING BANDSAWS STERLING CNC AUTOMATIC TWIN COLUMN HEAVY DUTY BANDSAWS

- Vice feed automatic with vertical clamping
- Up to 560mm (22") diameter capacity
- Pipe bundling available

### AUTOMATIC MEASURING AND HANDLING SYSTEMS STERLING AUTOMATIC MEASURING, FEEDING, LOADING AND UNLOADING SYSTEMS FOR BANDSAWS

- Increased automation reduces cost per part
- Reduces labour
- Accurate repeatability
- Increases safety

## FABRICATION MACHINERY SOLUTIONS

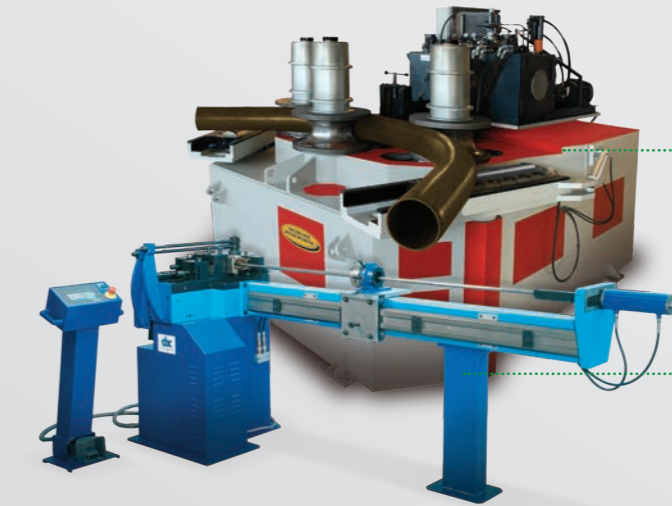

### PIPE & PLATE BEVELLING PROMOTECH PRO40 PBS STATIONARY PIPE BEVELLING MACHINE

- Multiple bevels including j prep
- 200-1000mm pipe diameter
- OD/ID & face off machining

### PIPE & PLATE BEVELLING PROMOTECH ABM28 AUTOMATIC FEED PLATE BEVELLER

- Top/bottom/face off & j bevel capability
- Plate thickness up to 70mm
- Self feeding for less manual handling

### PIPE & SECTION BENDING CBC MANDREL TUBE BENDING MACHINERY

- High quality stainless & mild steel tube bending
- Max capacity 100mm diameter tube
- CNC automation available for repeat production

### MORGAN RUSHWORTH SECTION ROLLING MACHINERY

- Stationary rolling of pipe, sections & bar
- Max capacity 550mm diameter tube

### PLATE PUNCHING MORGAN RUSHWORTH HYDRAULIC STEELWORKERS

- Punch, shear, bend & notch steel on one machine
- Automation options for accuracy

### PROMOTECH PORTABLE HYDRAULIC PUNCHES

- Punch up to 16mm plate
- Mobile workshop support for easy safe use
