

Kepp 150D/E High Speed Belt Grinding Machine

Stock Code: 17020

The Kepp 150D/E model has dust extraction functionality. The metal removal rate of the Kepp belt grinding machines is phenomenal with a grinding power over fifteen times traditional stone grinders. These powerful machines can radius heavy plate and bar in one operation, avoiding the need to crop or burn the required profile prior to dressing. A 50mm radius in 12mm steel plate is achieved in ten seconds. They have an endless variety of applications for Fabricators, Blacksmiths and many others in the metalworking industry.

Features

- Brake motor
- Extremely powerful grinding performance.
- Highly rigid construction.
- Quick change belt system.
- Adjustable working height.
- Available in 3” and 6” belt widths.
- Eye protection.
- Emergency stop button.
- Dust collection box.
- Dust extractor

Technical Specification

MODEL	150D/E
Motor kW	3.6
Belt speed m/sec	37
Belt size mm	150 x 2000
Length mm	1000
Width mm	520
Height mm	1000
Weight kg	115
