

Kepp BT60 Drill Grinding Machine

Stock Code: 17401

The Kepp drill grinding machines provide the perfect solution to easily, quickly and accurately sharpen drill bits. The single arm models can sharpen up to 30mm, whilst the twin arm machines have a maximum capacity of 60mm. The machines are simple to use as the operator places the drill bit into the arm, locates the flute into a positioning pin and swings the arm backwards and forwards. The drill is perfectly ground against the side of the grinding wheel. The operator simply rotates the drill bit 180 degrees and repeats the process.

Features

- Fast accurate sharpening of drill bits.
- Available as bench models or with pedestal and coolant reservoir.
- Tool rest supplied to auxiliary grinding wheel with single arm models.

Technical Specification

MODEL	BT60
Drill grinding capacity mm	4 - 60
Grinding cup wheel mm	200 x 38 x 20
Table size mm	390 x 410
Speed rpm	3000
Motor kW	0.83
Length mm	980
Width mm	425
Height mm	1025
Weight kg	55
