

Morgan Rushworth DPBH-3 2050/210 Hydraulic 3 Roll Plate Bending Rolls

Stock Code: M3500

The Morgan Rushworth DPBH-3 hydraulic bending rolls are of the pyramid style with all three rolls hydraulically driven. The models with roll diameters up to 300mm are fitted with the type A shaft design with orbital action for up and down translation. The machines with roll diameters from 320mm to 550mm are equipped with type B shaft design with linear action for up and down translation. All models have hydraulic drop end and are supplied with DRO to indicate roll position.

Features

- Hydraulic driven rolls
- Hydraulic drop end and top roll tilt
- Hydraulic up and down roll movement
- Induction hardened rolls
- DRO for both side rollers
- Double pre-bending to front and rear edge of plate
- Cone bending device
- Welded steel construction
- Safety trip wire around the machine
- Mobile control panel

Technical Specification

MODEL	DPBH-3 2050/210
Capacity mm	10
Bending length mm	2050
Max angle °	-
Top/Bottom Roll dia mm	210
Side Rolls dia mm	190
Length mm	3400
Width mm	1200
Height mm	1300
Weight kg	4200
Motor kW	7.5

Options

- Side and central supports for large sheet metal diameters
- Extended rolls
- Profile rolls
- Material feed table
