

Morgan Rushworth DPBH-3 2050/320 Hydraulic 3 Roll Plate Bending Rolls

Stock Code: M3504

The Morgan Rushworth DPBH-3 hydraulic bending rolls are of the pyramid style with all three rolls hydraulically driven. The models with roll diameters up to 300mm are fitted with the type A shaft design with orbital action for up and down translation. The machines with roll diameters from 320mm to 550mm are equipped with type B shaft design with linear action for up and down translation. All models have hydraulic drop end and are supplied with DRO to indicate roll position.

Features

- Hydraulic driven rolls
- Hydraulic drop end and top roll tilt
- Hydraulic up and down roll movement
- Induction hardened rolls
- DRO for both side rollers
- Double pre-bending to front and rear edge of plate
- Cone bending device
- Welded steel construction
- Safety trip wire around the machine
- Mobile control panel

Technical Specification

MODEL	DPBH-3 2050/320
Capacity mm	25
Bending length mm	2050
Max angle °	-
Top/Bottom Roll dia mm	320
Side Rolls dia mm	310
Length mm	4600
Width mm	1950
Height mm	1750
Weight kg	10450
Motor kW	22

Options

- Side and central supports for large sheet metal diameters
- Extended rolls
- Profile rolls
- Material feed table
