

TECHNICAL SPECIFICATION

Morgan Rushworth DPBH-3 2550/240 Hydraulic 3 Roll Plate Bending Rolls

Stock Code: M3512

The Morgan Rushworth DPBH-3 hydraulic bending rolls are of the pyramid style with all three rolls hydraulically driven. The models with roll diameters up to 300mm are fitted with the type A shaft design with orbital action for up and down translation. The machines with roll diameters from 320mm to 550mm are equipped with type B shaft design with linear action for up and down translation. All models have hydraulic drop end and are supplied with DRO to indicate roll position.

Features

- o Hydraulic driven rolls
- $\circ\;$ Hydraulic drop end and top roll tilt
- o Hydraulic up andd own roll movement
- o Induction hardened rolls
- o DRO for both side rollers
- o Double pre-bending to from and rear edge of plate
- o Cone bending device
- Welded steel constuction
- o Safety trip wire around the machine
- Mobile control panel

Technical Specification

MODEL	DPBH-3 2550/240
Capacity mm	10
Bending length mm	2550
Max angle ^o	-
Top/Bottom Roll dia mm	240
Side Rolls dia mm	220
Length mm	3900
Width mm	1300
Height mm	1450
Weight kg	5670
Motor kW	7.5

Options

- o Side and central supports for large sheet metal diameters
- o Extended rolls
- o Profile rolls
- Material feed table
