

CBC UNI 42 Manual Rotary Tube Bending Machine

Stock Code: 21194

The CBC tube bending machines range from "easy to use" simple machines to precision programmable production machines. A comprehensive tooling range ensures high bend quality on all models. All formers can be specified with either counterformers or guide rollers depending on material and wall thickness. Optional equipment includes moving arm with positioning stops and plane of bend indicator.

Features

- Compact, simple, “easy to use” machine
- Quality bending at competitive pricing
- Superb bend quality with rotary bending around former
- Complete range of tooling available; cast iron formers c/w ring in a large range of standard sizes and counter bending pressure with either counterformer or a pair of rolls according to wall thickness of the tube (tooling not included)
- Bends angles up to 180° with allowance for over bending to compensate for spring back

Technical Specification

MODEL	UNI42 Manual
Capacity (mild steel) mm	42.3 x 3.2
Max bending angle	180°
Motor kW	-
Programs	-
Bends / Program	-
Length mm	400
Width mm	200
Height mm	250
Weight kg	18
