

Morgan Rushworth PSR 35/140 Powered Section Bending Machine

Stock Code: M6012

The Morgan Rushworth powered section bending machines are available in shaft diameters of 35mm and 50mm. Both models provide a cost effective solution for the bending of various sections, ideal for 'jobbing' type applications.

All machines include a full set of rolls for the bending of flat bar, flat bar on edge, round bar, square bar and box section.

Both of the bottom rolls are powered, providing powerful traction, whilst the top adjustable idler roll determines the bending radius according to its position.

Features

- Operates horizontally or vertically
- Forward and reverse foot pedal
- Manual roll adjustment with pointer and scale roll position indicator

Technical Specification

MODEL	PSR 35/140
Section Modulus mm ³	-
Power kW	0.75
Rolls Ø mm	137
Shaft Ø mm	35
Bending speed m/min	2.1
Length mm	670
Width mm	530
Height mm	1350
Weight kg	195

Options

- Optional tube rolls available upon request
- Optional 240V version (Stock code: M6013)
