

Morgan Rushworth RFS 9/1.0 Snap Lock Forming Machine

Stock Code: M7004

The Morgan Rushworth range of heavy duty Rollforming and flanging machinery are designed to join straight or curved sheet metal material.

Full range of tooling is available to achieve the various connection methods required, including the ingenious snap lock system for valuable time saving right angle joins.

Features

- Type G rolls fitted as standard to perform Pittsburgh style profile but with return leg to accept type H flange
- Type H rolls fitted as standard to perform a right angle flange which is crimped to snap into type G profile to produce a virtually unbreakable joint
- No exposed sharp edges after join completed
- Fast straight forming in one pass

Technical Specification

MODEL	RFS 9/1.0
No of stations	9
Forming speed m/min	6
Motor kW	1.5
Length mm	1650
Width mm	620
Height mm	1020
Weight kg	290
