

Morgan Rushworth RFLS 1.0 Snap Lock Flanging Machine

Stock Code: M7006

The Morgan Rushworth range of heavy duty Rollforming and flanging machinery are designed to join straight or curved sheet metal material.

Full range of tooling is available to achieve the various connection methods required, including the ingenious snap lock system for valuable time saving right angle joins.

Features

- Twin station flanging capability
- First station produces Type J right angle flange for curved material
- Second station produces Type K crimp to the flange, to allow the material to snap into Type G profile for curved applications

Technical Specification

MODEL	RFLS 1.0
No of stations	-
Forming speed m/min	3
Motor kW	0.75
Length mm	1000
Width mm	660
Height mm	1020
Weight kg	130
