

TECHNICAL SPECIFICATION

Morgan Rushworth HBM 100/300 Horizontal Bending Press 415V

The Morgan Rushworth hydraulic horizontal bending machines are ideal for precision bending, straightening, punching and shearing. Available with capacities from 10 tonnes up to 100 tonnes and with a large range of optional tooling, these machines are capable of performing a whole variety of bending operations. The bending stroke and ram return positions are set using a simple digital programmer. Standard tools for bending flat bars are included.

Features

- Extremely adaptable and capable of a wide range of bending applications
- Digital setting of bending stroke and ram return positions
- Stroke regulation by means of sensitive electric limit switches
- $\circ~$ Standard bar bending tools included
- $\circ\,$ Large range of special tooling available
- Ideal for one off or production applications
- Forward/reverse footpedal control

Options

Technical Specification

MODEL		HBM 100/300
Bending capacity	tonne	100
Table size	mm	750 x 1425
Tooling height	mm	300
Stroke	mm	285
Table height	mm	930
Approach speed	mm/min	600
Return speed	mm/min	600
Motor	kW	10.0
Length	mm	1430
Width	mm	750
Height	mm	1450
Weight	kg	1700

• Cutting, Punching, Straightening and Pipe bending tooling available on request
