

## Curvassi RTS 114 Tube Bending Machine 415V

The Curvassi range of rotary tube bending machines have been designed for high quality bending of both metric and imperial tube sizes with a wall thickness sufficient to bend without a mandrel. Tooling can be supplied any tube diameter within the capacity of the machine and in a variety of centre line radii. Three models are available with tube bending capacities of up to 60mm, 76mm and 114mm diameter, based on mild steel tube.

## Features

- Heavy duty constructionExcellent bend quality
- Quick release guide block
- Digital read out of bending angle
- Counter read out for guide block position
- Complete tooling service

## Technical Specification

| MODEL                           | RTS 114 |
|---------------------------------|---------|
| Tube capacity (mild steel)      | 114 x 4 |
| Square capacity (mild steel) mm | 80      |
| Maximum bending radius mm       | 500     |
| Maximum bending angle deg       | 180     |
| Bending speed RPM               | 2.2     |
| Motor kW                        | 7.5     |
| Length mm                       | 1600    |
| Width mm                        | 1000    |
| Height mm                       | 1600    |
| Length                          | 1600    |
| Weight kg                       | 1200    |

## Options

- Variable bending speed
