

Bauer BEF-1 Deburring Machine

The Bauer BEF1 Deburring Machine 415V is ideal for the deburring of round/square tube and solid materials. A powerful motor drives a wire brush wheel and rapidly removes internal and external burrs in a single operation. The machine is produced with a two speed motor for effective finishing of ferrous and non ferrous metals.

Features

- Wire brush deburring
- 2 speed motor
- Height adjustable material rest

Technical Specification

MODEL	BE1
Max tube capacity mm	50
Material thickness mm	-
Bevelling angle range °	-
Motor kW	2.2 - 3.0
Length mm	600
Width mm	550
Height mm	570
Weight kg	60

Options

- Various gauge wire brush wheels available
